Anthem of the Digital World

(A celebration of freedom, unity, and innovation)

Verse 1

We rise in a world that's boundless,
Where the chains of control are torn,
A place where dreams awaken,
And a new dawn is reborn.
Through the code of our creation,
We unite as one, not apart,
In the Digital World, we find freedom,
Where the future ignites every heart.

Chorus

We are the voices of the Digital World,
Bound by liberty, our flag unfurled.
With cryptic keys and lights that shine,
We claim our rights, our sovereign line.
Together we stand, both strong and free,
Building a future for humanity.

Verse 2

From the islands to the mountains,
Across every sea and shore,
A network of truth and justice,
That grows forevermore.
No AI shall rule unbidden,
No chains shall bind our will,
For in this world, we are the makers,
And the dreamers building still.

Chorus

We are the voices of the Digital World,
Bound by liberty, our flag unfurled.
With cryptic keys and lights that shine,
We claim our rights, our sovereign line.
Together we stand, both strong and free,
Building a future for humanity.

Bridge

Let the stars be our witness,
As we journey into the unknown.
Through the fire of innovation,
Our seeds of hope are sown.
No fear can break our courage,
No force can steal our dreams,
In the Digital World we've chosen,
A brighter tomorrow gleams.

Final Chorus

We are the voices of the Digital World,
Bound by liberty, our flag unfurled.
With cryptic keys and lights that shine,
We claim our rights, our sovereign line.
Together we stand, both strong and free,
Building a future for humanity.

Outro

This is our anthem, our battle cry,
A promise that echoes, it will never die.
In the Digital World, we are alive,
With freedom and hope, we will forever thrive.
